

Index

Volume 37, 1993

Compiled by Edward Swanson

General Procedures Used in Compiling the Index

The following types of entries are included:

- a. Authors—of articles, reviews, and letters
- b. Titles—of articles and of articles about which letters were published
- c. Subjects—of articles and of books reviewed

Subject entries for individuals are identified by "(about)"; letters are identified by "(c)".

Reviews are indexed by name of reviewer and by subject of the work reviewed, identified by "(r)." They are also listed by title under the heading "Books reviewed."

Entries are arranged word by word following the "file-as-spelled" principle. Numbers are arranged before alphabetical characters; acronyms without internal punctuation are arranged as words.

Paging of Volume 37:

Pages	1-120	=	Number 1 (January)
Pages	121-248	=	Number 2 (April)
Pages	249-344	=	Number 3 (July)
Pages	345-464	=	Number 4 (October)

All systems go.

At EBSCO we believe you should have the freedom to choose the best subscription service *and* the best automated system for your needs. These are two independent decisions with major implications for your library. That's why our efficient electronic services are compatible with most major library and serials control systems. So, you can have superior subscription service *and* your system of choice, too. Call us today to learn more about our independence-oriented library automation services.
